POLYMER INDUSTRIES PVT. LTD.

# PRITHVI POLYMER INDUSTRIES PVT. LTD.

## About Us

Prithvi Polymers believes in quality, right from designing to delivering our food-friendly plastic serving ware. We manufacture a range of disposable, reusable and recyclable plastic containers like cups, bowls, meal box, sweet boxes, food packaging products and more. Employing advanced thermoforming technology, high-quality raw materials and superior supply chain and logistics; we ensure that each cup or bowl is created with perfection.

All the products by Prithvi Polymers have been through this test ensuring that the products do not include any subsequent substance added by the converter or any other agency.

Food Contact Application is a test for food packaging and food contact material that ensures the quality, safety and performance of the packaging products.

Our products have also undergone Centre of Skilling and Technical Support (CSTS) Test that ensures that every product is made using high-quality polypropylene material that can be reused and recycled.

Being manufacturers of food-safe plastic containers, we primarily cater to the food and beverages, hospitality and travel industry; where the products are used for food packaging, serving and takeaways. Our products are the ideal cost-effective solution for convenience and hygiene on the go.

### Barrier (MAP) products

Our multilayer polypropylene containers with excellent barrier and light weight features are ideal for single serve cups and multiple use containers. Products are multi featured having properties like

- MAP – Modified Atmosphere Packaging
- Microwave Safe
- Retort Grade

## Vision

We endeavour to : Create a range of best quality disposable plastic food containers that will serve as an alternative to non-disposable ware at affordable prices

Cater to a wide range of industries and exceed customer expectations

## Mission

We aspire to deliver highest quality products at reasonable prices by :

- Sourcing from trusted partners
- Ensuring quality checks at every stage
- Complying with benchmark quality levels

We aspire to exceed customer expectations by :

- Maintaining regular interaction with clients
- Consistent R&D
- Innovation

# Infrastructure

The well-equipped, state-of-the-art food-container manufacturing units at Prithvi in Silvassa host advanced technology extruders, high-speed thermoforming machines and supreme-quality moulds. We employ thermoforming machines with automatic servo controlled PLC system, ideal for manufacture of plastic ware from polypropylene (PP).

Our production plants and offices are housed in a spacious 42,000 sq.ft. facility in Silvassa. To ensure uninterrupted production, we directly source power from the sub-station through an express feeder and utilize stabilizers for consistent supply.

The German fully automated machinery utilised at Prithvi have high operating speeds and allow the use of variety of moulds, thereby ensuring quality production with high efficiency. To enhance the aesthetics of the polypropylene containers, printing machines that create decorative prints on plastic cups and bowls are also used. We are an ISO-certified company.

# Quality Policy

**We have all setup to check the quality of the product.**

Quality is our key strength. We strictly adhere to benchmark standards and industry guidelines and have streamlined our production processes to ensure consistent high quality of the wares at all phases.

# PET Hinged Box

# PET Hinged Box

One of our most popular disposable food packaging boxes, these are perfect to store variety of sweets and treats. Be it the ever-popular Indian sweets, chocolates, cookies, or even farsan, these clear hinged containers ensure all your food items remain fresh. These plastic boxes are also convenient to use as disposable lunch boxes for meals on the go.

### 600 CC

Compact, yet sturdy, this disposable plastic box, is ideal to pack a smaller amount of sweets. The air-tight box ensures freshness of the food while retaining its flavour for a longer time.

Rim Dia	: 180 X 130 X 45	Height :	600CC
Raw material :	PET	Colour :	Transparent

### 750 CC

The biggest problem when it comes to food storage is interaction with oxygen or water. Our disposable food containers are air-tight and protect your food from all unwanted external factors.

Rim Dia	: 180 X 130 X 55	Height :	750CC
Raw material :	PET	Colour :	Transparent

### 1000 CC

This size is perfect to store your sweets and food items hygienically. Pack your favourite sweet or savoury and ensure it remains fresh and in proper condition till your meal time.

Rim Dia	: 180 X 130 X 77	Height :	1000CC
Raw material :	PET	Colour :	Transparent

## 1250 CC

As a top manufacturer of disposable plastic food containers, we supply various sized-boxes. This is a popular choice for many as it safely accommodates a variety of food items such as chocolates, cookies, and sweets. Store these safely in your store or at home for a long time without worrying about them becoming stale.

Rim Dia	: 230 X 180 X 50	Height : 1250CC
Raw material : PET	Colour : Transparent	

A lot of food boxes and containers get stained from the fat and other ingredients used in cookies and sweets. Not only does this spoil the container but compromise the taste as well. Our box allows for safe storage of all sweets without any staining or change in taste.

Rim Dia	: 230 X 180 X 55	Height : 1500CC
Raw material : PET	Colour : Transparent	

## 1500 CC

# Barrier Products

# Barrier (Map) & Retort Products

Indian sweets are one of the most popular gifts for occasions, festivals, or any celebration. In order to retain their freshness, they need to be packaged with great care by laddoo box manufacturers. A lot of Indian sweets contain ingredients such as dairy and fat that can stain disposable cartons. Also, they can compromise the taste and hygiene of the sweets. Our plastic bearerier/ barrier boxes have been designed to store your sweets carefully ensuring they retain their freshness and taste, and last for a longer time without breaking or getting damaged.

Our multilayer polypropylene containers with excellent barrier and light weight features are ideal for single serve cups and multiple use containers. Products are multi featured having properties like MAP – Modified Atmosphere Packaging, Microwave Safe, Retort Grade.
